

SAMUDRA

SINGLE PHASE | HIGH SPEED

Mini Pressure Boosting System

▶ SMPBS

Parameters		Range
Power Rating	(HP)	0.5
Head Range	(m)	6 - 32
Discharge Range	(lph)	2500 - 550
Pipe Size	(mm)	25 x 25
Voltage	(Volts)	230
Speed	(rpm)	2800

Salient Features

- Energy efficient hydraulic & electric design
- TEFC construction, Specifically designed for pressure boosting system
- High quality pressure switch & tank for longer life
- Rigid construction for noiseless operation & vibration free running

Application

- Pressurized water supply to Gardens, Sprayers, Bathrooms, Kitchen & Water wash applications

*As the design and manufacture of Samudra pumps are subject to constant improvement, the product supplied may differ in some details from the specification given.
